www.mnfireinitiative.com

The Minnesota Firefighter Initiative (or **MnFIRE**; Minnesotans Forging Solutions by Investing in Resources and Education) is designed to be the connection for firefighters, family, friends, employers, and elected officials that helps to build awareness and give the right resources to the people that want and or need them.

Currently, **MnFIRE** is focused on **Cardiac Issues**, **Emotional Wellness**, and **Cancer** in the Minnesota fire service.

MnFIRE is a collaboration of the Minnesota Professional Firefighters, the Minnesota State Fire Department Association, and the Minnesota State Fire Chiefs Association:
